

XR Lab Assignment Report

Project: vr__lab11 | Unity 6000.3.11f1 | 3D URP | Target: Standalone Windows / OpenXR

Repository link: not configured in this local checkout. Add the final GitHub/Plastic repository URL here before submission. Local project path: E:/projekty/unity/nowe/vr__lab11

Task	Evidence
1. Project setup and XR rig	XR Management 4.6.0, OpenXR 1.17.0, XR Interaction Toolkit 3.5.0 installed. Starter Assets
2. Controller representation	Left Controller and Right Controller exist under XR Origin. Extra visible controller model children
3. Input handling	Assets/Input/XRLabControls.inputactions contains trigger, grip, primary/secondary button, and
4. Interaction basics	Cube, sphere, and table have Rigidbody, XRGrabInteractable with throwOnDetach enabled, and

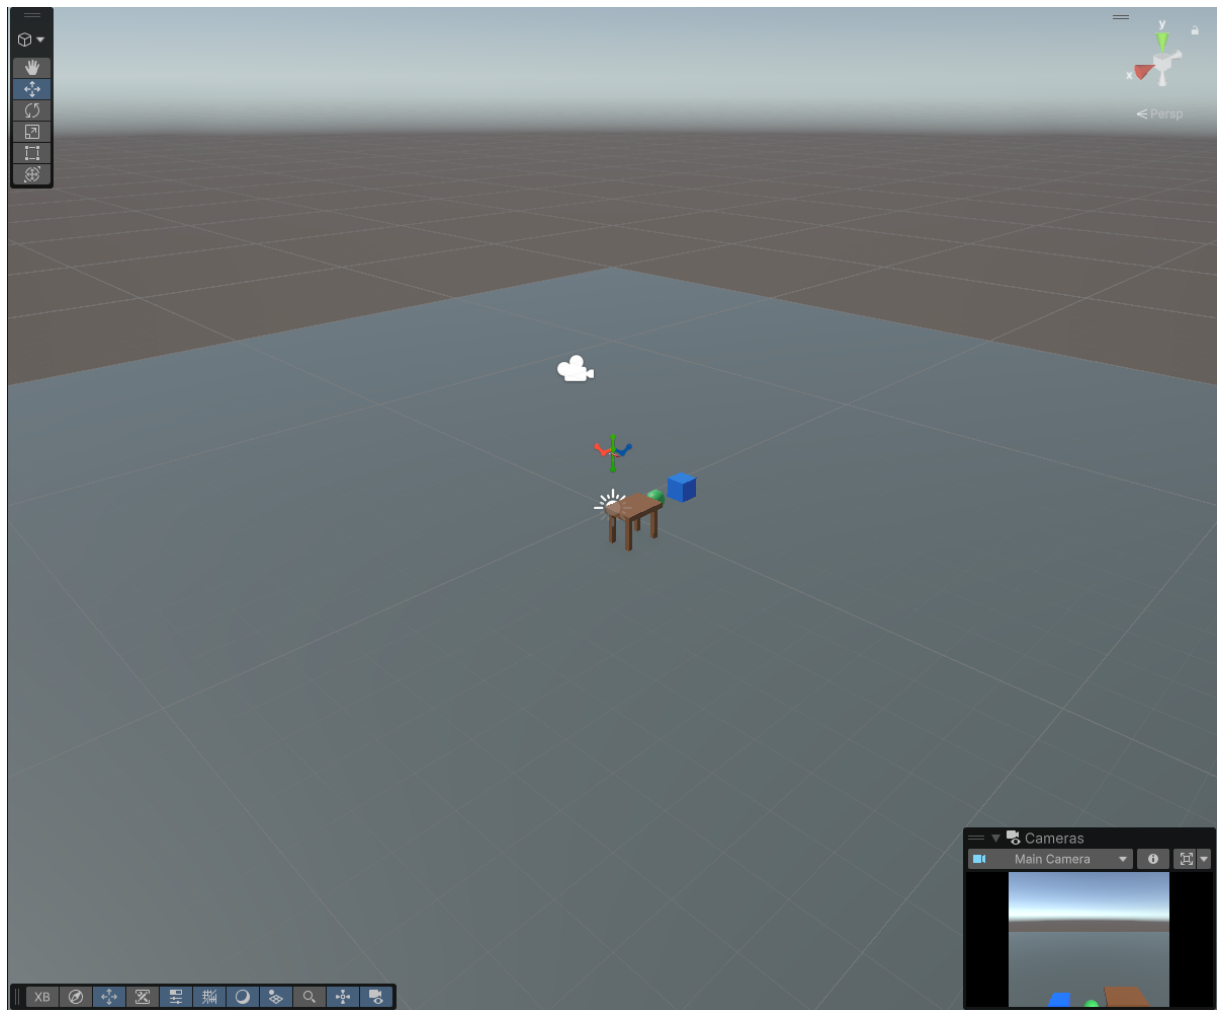

Scene Hierarchy Evidence

XRLabScene hierarchy evidence

```
XRLabScene
  Lab Tasks Evidence Root
    XR Origin (XR Rig) - Floor Tracking
      Camera Offset
        Left Controller
          Left Controller Model
        Right Controller
          Right Controller Model
        Main Camera (height 1.7 m)
      Ground Plane
      Grabbable Color Cube
        XRGrabInteractable + Rigidbody + ReachHighlight
      Grabbable Sphere
        XRGrabInteractable + Rigidbody + ReachHighlight
      Grabbable Table
        XRGrabInteractable + Rigidbody + ReachHighlight
      Input Action Demo - Primary Button Changes Cube Color
        PrimaryButtonColorChanger
      Directional Light
      XR Interaction Simulator
```

Generated from Unity MCP hierarchy queries because OS-level desktop capture returned a black frame in this environment.
